

# Technology Solutions for Pharmacy Benefit Management

SaaS powered by **laker** SOFTWARE

## Flexible, scalable platform that adapts to your business needs

Elixir's pharmacy technology platform, Laker Software, provides industry leading claims adjudication software, tools and technology services. Our software is trusted by those offering commercial and government claims processing programs (Medicare, Medicaid and Exchange), workers' compensation and prescription savings card programs. You can rely on us to rapidly adapt to market requirements, workflow efficiencies and benefits changes, and even build hybrid solutions tailored to match your business needs and system requirements.

## A platform so strong, you can rely on it with confidence

Our adjudication software provides superior performance and industry leading uptime. Claims undergo hundreds of edits to achieve quick and accurate processing results, regardless of the complexity of the plan design. Our platform is one of the fastest and most reliable pharmacy claims systems available—and why so many choose to lease our technology to enable their own claims adjudication.

## Rooted in pharmacy benefits

Designed to help you optimize the management of your pharmacy benefits, Laker has been a leading technology platform for more than 20 years. With the ability to manage multiple lines of business, it's the obvious choice for pharmacy claims adjudication. Depend on us to support your business, enable your growth and help you succeed in every segment of the pharmacy lifecycle.

### Expertise with multiple lines of business, including:

- Medicare/Medicaid/Exchange
- Commercial payers
- Full adjudication and processing for 340B pharmacies
- Rx savings card programs
- Workers' compensation

### Software capabilities you need:

- Claims Processing/Adjudication
